

All Fibre Drum

(24 litres - 200 litres)

The modular packaging system for a wide range of dry and solid materials, including products classed as hazardous.

The All Fibre drum range offers a rugged, environmentally friendly approach to industrial packaging. With flush fitting lids, the drums are ideal for stacking and storing.

- Flexibility of size makes the All Fibre drum a popular dry product package. The drums are light weight yet very durable.
- The standard All Fibre drum has a rugged, double wall construction (multiplayer), telescoping cover and positive flush tape seal for added rigidity and a smooth exterior.
- The transport All Fibre drum is a sturdy single wall construction with a telescoping cover for offset tape closure.
- All Fibre drums are 100% recyclable.
- The drum's lids can be securely sealed with adhesive tape.
- Fibre drums are sturdy yet low in weight. Benefits that count during transport and storage.
- The materials used by Greif to manufacture fibre drums ensure that they are suitable for recycling.

All Fibre Drum

(24 litres - 200 litres)

Standard Greif specifications

Capacity

24 litres up to 200 litres.

Construction

- **Body:**
Convolutely wound fibreboard. Top of body reduced to accept flush fitting lid.
- **Lid:**
Fibreboard slip lid.
- **Bottom:**
