

## Small Tight Head Plastic Drum

**EuroNew, EuroTop, Quadratainer®, Eurotainer, Rondotainer® and Cubitainer**

(15 litres - 50 litres)

**Greif's expertise in blow-moulding ensures consistent standards, stackability and allround excellence even in rigorous day-to-day use**

A range of blow-moulded containers is manufactured at several locations. The blow-moulded containers meet the diverse requirements set by the lubricant, edible oil, agrochemical, chemical and dairy hygiene markets. Tradenames for Greif's blow-moulded containers are EuroNew, EuroTop, Eurotainer, Quadratainer®, Rondotainer® and Cubitainer.

- Every single blow-moulded drum, whether UN certified or not, is air-leak tested before shipment to ensure maximum safety standards.
- Containers can be embossed, labelled or silk-screen printed ensuring maximum exposure of your brand image or important product information. Multi-coloured sleeves can also be factory fitted.
- Greif's own in-plant design and printing facility can help ensure that the containers always look their best and project the desired image.
- All blow-moulded drums are available in natural polyethylene or pigmented in a standard range of colours.
- Greif's EuroNew container has been designed to offer customers a highly versatile jerrican.
- Providing the ultimate economical service, EuroNew is manufactured using the very latest state-of-the-art machinery to give a high speed manufacturing process, combined with minimum product variation.
- EuroNew has been manufactured to conform to CEN standards and offers significant benefits.
- Its streamlined design allows for easy stacking, therefore enhancing storage potential, maximising distribution space and reducing freight costs.
- Greif also offers technical service support including product compatibility and advice on transport of hazardous materials.

## **EuroNew, EuroTop, Quadratainer<sup>®</sup>, Eurotainer, Rondotainer<sup>®</sup> and Cubitainer**

(15 litres - 50 litres)

### **Standard Greif specifications**

#### **Construction**

- **Material:**  
High Molecular Weight High Density Polyethylene.
- **Diameters:**  
From 285 mm up to 336.5 mm.
- **Height:**  
From 310 mm up to 590 mm.

#### **Decorations**

Standard colours are natural and blue. Please contact Greif's Sales Department (see address below) for details of other available colours.

#### **Closures**

Quadratainer<sup>®</sup> and EuroNew containers are supplied with DIN 60 tamper-evident caps as standard. These can be supplied plain or with a microporous vent. Other closure options include G2 Tri-Sure<sup>®</sup> Buttress thread bung, tap-fittings for less waste and easy closing after use, dustcaps for food and pharmaceutical use.

#### **UN performance and quality**

The same high quality standards apply whether our customers require economic light duty or high performance UN and ADR/RID approved containers.

#### **Quality**

All Greif European plastic drum sites are certified to DIN EN ISO 9002.

Quadratainer, Rondotainer and Tri-Sure are all registered trademarks by Greif.
