

Multi-trip Collapsible Intermediate Bulk Container

Concertainer

The re-usable and collapsible packaging offering a combination of guaranteed product integrity and the lowest cost per trip

Customers looking for a more efficient container for large quantities should turn to Greif's intermediate bulk containers (IBC). IBCs decrease customer costs through reduced handling, storage space, and shipping expenses. IBCs are easy to use, transport, and recycle.

- The Concertainer is a re-usable and collapsible liquid packaging, saving valuable warehouse space and minimizing return freight cost.
- Capacity: 500-1,000 litres.
- The unit's liner ensures products are not exposed to air or contaminants and can be easily disposed eliminating cleaning between each trip.
- Ideal for non-hazardous goods, such as food ingredients, the Concertainer is available in rectangular or square versions and has a capacity of 1,000 Litres.
- The unit's frame, outer bag and cover are connected, allowing the Concertainer to be erected and collapsed as a single mechanism.
- Easy operation and no loose parts ensure quick assembly.
- Thanks to its unique bag-in-bag system the Concertainer can be filled fully closed. This system is specially developed for multitrip use.
- The strong outer bag can be customized with your company name or logo and is available in 28 colors.

Features & Benefits

- Four top corner locating cones to ensure safe stacking
- Stackability: 20 high when empty; 5 high when filled
- Steel bracing ribs to preserve square shape when full
- Lids in aluminum and polyester
- Outer bag produced of polyester H.T. 1100 DTEX
- Various types of inner liners with 2" or 3" inlet and outlet
- Liner unfolds automatically during filling
- Disposable liner eliminates cleaning
- Flexible sides stand up to knocks
- Plastic sleeves for shipping documents or product information
